

Please DO NOT amend Indiana's "do not call list" so companies can harass me again with their unsolicited sales pitches when I'm at home. If I want their business I can call them. Please! Since the Indiana "do not call list" went through, we no longer get 5-7 calls every evening (we're high on a lot of demographics lists I guess), and supertime is only interrupted by friends or family, which is how it should be!

Thank you
